¹ IP68 indicates that the hearing aid is water and dust resistant. It survived continuous immersion in 1 meter of fresh water for 60 minutes and 8 hours in a dust chamber as per the IEC60529 standard.
² Actual charging time depends on the remaining battery life and may be affected by temperature conditions.

Phonak Naída L Trial

The Phonak Naída L Trial hearing aids can be quickly set to the required performance level in order to suit your recommendation. This provides you the ability to fit your patient with the optimal hearing solution already at the first appointment or to provide a replacement when their hearing aid is in for repair. The Naída L Trial devices also include a pre-installed Roger receiver for easy demonstration and trial of any Roger microphone.

Phonak Naída L-PR charging options

Phonak Charger Combi BTE / Phonak Charger Combi BTE 2

Naída L-PR has all the Lumity features you love as well as the benefit of rechargeability. Patients can enjoy a full day of hearing including streaming*.

* Expected battery life of 16 hours, including 4 hours of BT classic streaming and 4 hours of TV Connector streaming.

life is on

Since 1947, Phonak is dedicated to preserving life quality by opening new acoustic worlds. Already back then, in the days of our foundation, our company was driven by a formative conviction: We believe that well-hearing equates to well-being and thus is essential for living life to the fullest. In fact, the sense of hearing is directly linked to social, emotional, cognitive and physical well-being. Today as in future, we strive to offer the broadest portfolio of innovative hearing solutions. And, together with our hearing care professionals, we keep on focusing on what matters most: improving speech understanding, changing people's lives and having a positive effect on society as a whole.
