Представление на изделиято. Serenity Choice Pro/Plus е ухо за уши за моногранта употреба, специално адаптирано според ушите на човека. Това изделие е направено от биоматериални материали: акрил (пластмаса) и силикон (силоид) и два различни формата: factors: кончик (1) или мини (2).

Important Information
• If these instructions and warnings are not adhered to, the protection afforded by the product will be severely impaired.

• The product is intended to be placed in the ear and to reduce noise levels. The product is not intended for any other use.

• The product must be fitted, adjusted and maintained in contact with chemicals or alcohol.

• The material and design of the ear muffs is long-lasting. Nevertheless, the shape of the ear muffs may change over time due to temperature fluctuations (significantly).

This could adversely affect the sealing of the ear muffs and thereby the provided attenuation.

• The product must be correctly positioned in the ear (step 3) (D).

• Before use, make sure that the product and your hands are clean before insertion in order to reduce the risk of infection.

• The product may be adversely affected when coming into contact with chemicals or alcohol.

• Choking hazard: keep the product out of reach of young children.

• Do not use earplugs to attenuate warning sounds, alarms, and other important signs. Any alarm may distract you from hearing protection.

• Keep the earplugs in their protective container before and after use and for transport, and store it in a dry place at temperatures not below -20°C or above +60°C.

• Extended hearing protection must be worn at all times in noisy surroundings. Wearing hearing protection for several hours at a time causes discomfort. Take care when removing hearing protection in a safe environment to reduce strain on your ears.

Instructions for Use
For full-conch - Acrylic and Silicone

Inserting into the ear:
• Hold the ear muffs and twist them forward to avoid a rapid pressure.

• If your ear muffs are fitted with a neck cord or cable, remove the neck cord and twist it into your ear and then pull the mink fur layer to the right ear.

• Insert the ear muffs into your outer ear with the opening pointing into your ear canal (fig. 1).

• Gently twist and pull the earplugs until they are fully into your ear (fig 5) Ensure that the device holds firmly in your outer ear and forms a good seal (6).
