

Phonak Audéo™ R Infinio.

Make life sound extraordinary

Infinio

For over 75 years, Phonak has focused on what matters to you: improving speech understanding. We push the limits of technology with our Swiss-engineered hearing solutions, empowering you to connect socially, thrive mentally and emotionally, and ultimately improve your well-being.

Experience exceptional sound quality and comfort from the very first moment with Audéo Infinio, for those with mild to profound hearing loss. Whether you're chatting in a noisy café or watching TV at home, Audéo Infinio adapts seamlessly and automatically, leaving you free to focus on life's precious moments.

Hear your world with ease and live every moment with peace of mind. When you seamlessly connect to Bluetooth® devices using our industry-leading universal connectivity, Audéo Infinio does more than just provide exceptional sound quality.

Unlock a world of possibilities.

Exceptional sound quality

A whisper, a melody, a heartfelt conversation – Audéo R Infinio captures it for you. You're not just hearing the world; you're experiencing it in a way that's automatic and personalized for you. From the very first moment, you can enjoy exceptional sound quality and comfort.

With better speech understanding and reduced listening effort, you can engage in life's conversations with ease. Embrace life's meaningful moments.

- Fully automated to sense your surroundings and adjust your hearing aids
- SmartSpeech Technology orchestrates features that can provide up to 61% better speech understanding^{1*} and reduced listening effort by up to 45%^{2**} resulting in feeling less tired at the end of the day³

Discover more about Audéo Infinio

* Adults with sensorineural hearing loss using Roger Select with a compatible hearing aid or cochlear implant compared to hearing aid or cochlear implant alone tested in a simulated noisy restaurant setting

** In quiet listening situation from an adjacent room for adult hearing impaired subjects with moderate to severe hearing loss

Feel empowered with seamless connectivity

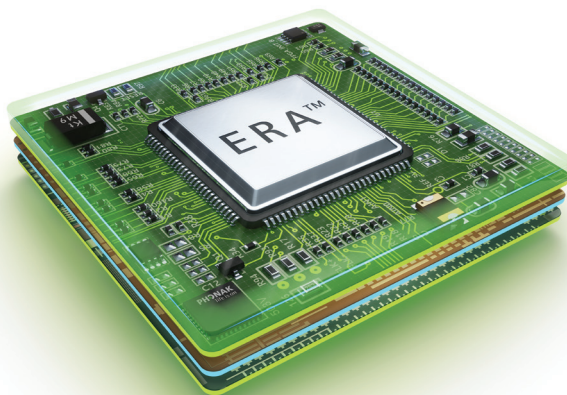

Step into a world where connection is always an option, where boundaries are redefined and possibilities seem endless, thanks to Audéo Infinio. At the heart is our ultra-responsive Phonak ERA™ chip, a true powerhouse.

Along with delivering exceptional sound quality and speech understanding, ERA ensures you stay connected, streaming hands-free calls and audio up to twice the distance compared to our previous

generations, while delivering more stable Bluetooth® connections. Whether you're using iOS® or Android™, Audéo Infinio has you covered.

- Pair up to 8 Bluetooth® devices and have 2 simultaneously connected
- Smooth, instant switching between listening with hearing aids and streaming modes
- Includes RogerDirect™ for a seamless connection to Roger™ microphones without additional hardware
- Adjust your hearing aids to your preference, such as volume control, all from your smartphone with the myPhonak app

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Sonova AG is under license.
iOS is a registered trademark or trademark of Cisco Systems, Inc. and/or its affiliates in the United States and certain other countries.
Android is a trademark of Google LLC.

Tested. Reliable. Proven.

You need your hearing aids to work consistently, day in and day out, so you can fully engage with the world around you. That's why we put Phonak Audéo Infinio through rigorous testing – to ensure that this advanced hearing aid is tested and reliable.

- Designed, engineered and tested with extreme precision to withstand the challenges of everyday life
- Phonak hearing aids are developed and proven with over 10,000 hours of testing
- Water resistant and sweatproof, exceeding testing requirements for the maximum IP68 rating standard

Unlock more meaningful connections with Roger

Roger is an intelligent wireless technology that transmits speech directly to Infinio hearing aids via RogerDirect. Functioning like a third ear, Roger picks up the voice of the speaker, television or telephone and wirelessly transmits it to the listener, giving an extra boost in noisy environments and over distance up to 25 meters/80 feet.

Roger improves speech understanding⁴ and empowers you to communicate effectively in challenging situations, from the classroom to business meetings and beyond.

life is on

Since 1947, Phonak is dedicated to preserving social, emotional and physical life quality by opening new acoustic worlds. We believe that well-hearing equates to well-being and thus is essential for living life to the fullest. Today we offer the broadest portfolio of innovative hearing solutions. And, together with our hearing care professionals, we keep on focusing on what matters most: improving speech understanding, changing people's lives and having a positive effect on society as a whole.
