

Phonak Lumity hearing aids with SmartSpeech™ Technology.

Put your health & hearing first

Phonak Lumity hearing aids are designed to help you participate in life! The technology in Lumity hearing aids uses AI-based machine learning to prioritize speech understanding, even in difficult listening situations like restaurants and social gatherings. Experience hearing technology that keeps your health and well-being in mind.

- SmartSpeech™ technology for improved speech understanding
- Rechargeable battery options
- Universal connectivity to a wide range of devices
- Personalized control with the easy-to-use myPhonak app

Join the conversation – there's a Phonak solution for everyone. Ask your hearing care provider which Phonak Lumity hearing aid is right for you.
